I am pursuing my Masters degree in Masters of Computer Application at J.C. Bose University Of Science & Technology, Y.M.C.A. , Faridabad and currently I am in my 3<sup>rd</sup> semester.

I have achieved my Bachelor's degree in Bachelor of Computer Application at B. S. Anangpuria Institute of Technology and Management (MDU University), Faridabad and my CGPA was 7.6 (On a scale of 10)

I have a keen interest in learning new technologies and apart from College I've also learned some technologies from Institutes as well as self learned some technologies.

I have completed some courses on Python(basics), Java DevOps, Android App Development from NIIT, Faridabad. And I continued to polish my Python skills by learning its more powerful technologies like GUI design, Image Editing, Working with Files, Data Analysis and Web Development using Django Framework by my own during the lockdown period in 2020.

Also I took help from some online websites for practicing my skills in python through which I earned some certificates from HackerRank, Cognitive Class, SoloLearn and TestDome.

I have done a project at NIIT under its DigiNxt Series "Java Enterprise Apps with Dev Ops" program.

And I have made some useful projects with Python during my learning period like Console Based, GUI Based and Web Based Applications

I actively participate in extra-curricular activities, which has helped me to develop team spirit and leadership qualities. I have participated in Tech Fest in My Graduating College through which I earned Certificates and a Trophy for my projects.

Furthermore I believe experiences from such activities have also inculcated fundamental management skills in me and also make me suitable for internship in your esteemed organization.

I hope to be an asset to the team and the organization while learning and gaining experience at your esteemed organization.

My resume is attached below for your kind consideration.

**Sincerely,**

**Sarthak Bhutani**
